

2018 Partner Agencies and Programs

Partner Agencies of United Way are held to the high-standard of programming and project outcomes they presented to the Community Action Team members in their application. The Community Action Team utilizes a specific investment process to ensure local needs are continually met through local programming. Each Partner Agency must re-apply every year to receive funds for specific programs and services they provide.

This year, United Way's Community Action Fund invested in 40 programs and two focus areas. The programs and services are listed below by partner agency.
